DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 4-15 and 17-19 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Amini et al PN 5,396,602.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3, 16 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Amini et al PN 5,396,602.

In regards to claims 3, 16 and 20: Amini et al teaches the well known standard centralized PCI bus arbitration claimed above. Amini et al however teaches the older PCI standard of 33 Mhz and not the newer 66 or 100 Mhz PCI bus standards. Official notice is taken that the 66 Mhz PCI and 100 Mhz PCI bus standards are very common in the art. It would have been obvious to a person of ordinary skill in the art at the time of the invention to have the well known standard arbitration method described by Amini et al comply with 66 Mhz and 100 Mhz

Art Unit: 2181

PCI buses because this would have prevented the arbitration method of Amini et al from becoming out of date.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

PN 6,212,590 B1 to Melo et al, PN 6,209,053 B1 to Kurts, PN 6,185,520 B1 to Brown et al, PN 5,778,194 to McCombs and PN 5,625,824 to Melo et al are all also cited as relevant to the claimed standard arbitration.
